

## Requirements testing.

Requirements for the registration form:

1. The "Surname" field contains only Cyrillic characters and the "-" sign.
2. The "Name" field - only Cyrillic characters and the "-" sign. Length is more than 3 characters
3. "Year of birth" field - up to 4 digits. All users must be over 16 years of age.
4. "Password" field - from 6 to 10 characters, numbers, or Latin letters.
5. The "Confirm password" field has the same requirements as the password field. The entered value must match the value in the "Password" field for successful registration.

The image shows a registration form titled "Реєстрація" (Registration). It contains five input fields, each with a label to its left: "Прізвище:" (Surname), "Ім'я" (Name), "Рік народження" (Year of birth), "Пароль" (Password), and "Підтвердити пароль" (Confirm password). Below the fields are two buttons: a red "Cancel" button and a green "Save" button.

Questions about requirements:

1. Will the inscriptions "Surname", "First name", "Year of birth" and others be aligned on one edge or will they remain in place?
2. Near the inscription "Surname" there are two dots, but not near the others, is it supposed to be like that?
3. What notification or message will the user receive if he leaves any of the fields of the registration form empty?
4. What notification or message will the user receive if he fills in any of the fields with invalid data (for example, he enters numbers in the "Surname" field)?
5. Will registration be successful if only the "-" sign is entered in the "Surname" field?
6. What is the minimum number of characters that can be entered in the "Name" field?
7. Will persons over 16 years of age be able to register?
8. Can the birth year field be less than or more than 4 digits?
9. Is it possible to enter special characters in the "Password" field?
10. What should be displayed when data is entered in the "Password" field?
11. Should there be an option to view the password in the form?
